

Northwood

Shorthorn Sale

**with a strong draft from
TEMPEL FARMS**

MONDAY, JUNE 1, 1964

CARY, ILLINOIS

Welcome to Northwood

Shorthorn breeders everywhere have taken a keen interest in the Northwood program. We appreciate your many sincere expressions about what this herd has meant to the breed and are proud you feel a co-ownership with us in the things that make Northwood.

In a sense, the sale serves as an annual report to you. No year has been more eventful for Northwood. There have been important successes in the major show and sale rings across the country. But, it will take your personal visit for you to see the true success of the past twelve months . . . as this is a story that has just begun to unfold publicly. To understand, you must see first hand the young bulls and females coming on by Glastullich Cock Robin. Universally popular as a champion, he is proving one of those rare sires that emerge in a breed all too seldom. We believe the fourteen of his first sons to be sold will provide Shorthorns with a vitally needed new bloodline.

Northwood is pleased to welcome Tempel Farms as a guest consignor. This has become one of the breed's finest herds and we are proud many of their best have come from Northwood. The twenty lots they sell not only help us make this the largest offering we have had, but unquestionably the strongest in quality and breeding. The opportunities for your herd advancement . . . through the large selection of bulls, the uniform high quality of the females, and the value of calves in dam . . . have never been as abundant.

In four years the finest Shorthorn and Polled Shorthorn herds from 29 states and Canada have purchased seed stock from Northwood. We realize the responsibility this encompasses. We ask you to come expecting the best, to view them more critically than all others and we shall endeavor never to disappoint you. Again, we look forward to welcoming you to Northwood.

A group of the cows purchased with the Glastullich herd. Three entire herds in Scotland were purchased for part of the Northwood foundation.

Another year of progress . . .

Nothing can ever be built with a solid future unless the proper foundation is laid. The founder of this herd, Otto Grosse, in a relatively short period of time assembled one of the greatest herds in the history of the beef cattle business. This was accomplished through bold but carefully calculated action. No man ever embarked upon the worthy pursuit of breeding seed stock with more enthusiasm and determination than did Otto Grosse. Blended with this were a rare cattleman's eye, an organizational ability, and, most important of all, a genuine love of livestock and the people in the livestock business.

His statement made two years ago gives an insight to his feelings and reflects the policy upon

which we operate today: "Your good wishes have been an inspiration to us, knowing we had the entire Shorthorn industry behind us. The future of the Shorthorn business is greater today than it has ever been in history. I knew when I bought my first Shorthorn something could be done to give the Shorthorn business its rightful place in the beef industry. Every year I have become more fascinated with this challenge . . . and the more I found out about Shorthorns and Shorthorn breeders, the more I was willing to invest in buying outstanding cattle to support this conviction and faith in this industry.

"Our Secretary Pete Swaffar is the greatest. Let us back him in every way by breeding more Shorthorns, better Shorthorns, and by doing a better job of telling the Shorthorn story to the ranchers of the world. Don't delay your herd improvement. Make up your mind to do something about it today."

It was only natural that the foundation purchases for Northwood would attract world wide attention . . . with the purchase of entire famous herds in Scotland like Glastullich, Findowrie, and Islabank as well as the best on this continent. However, of greater importance to you today is the fact that this is the first year when the **full effect** of all this has been felt in our breeding program and in the sale offering. These cattle have been

Two calves by Glastullich Cock Robin. Photo taken last fall.

with us long enough now so they and in many cases their daughters, are a part of our production. Further, we have retained enough key replacement females in recent years to now be able to spare that kind for the sale offering.

Vital, too, was our stroke of good fortune with Glastullich Cock Robin. The fourteen of his first sons in this sale have provided us with the strongest base we have ever had for a bull offering, and add to this the other strong entries from Northwood, and the five good ones from Tempel Farms and it makes a bull selection worthy of the consideration of the best herds of the breed.

With sons and daughters of Cock Robin and Guardsman in every pasture we sincerely believe the only way for you to understand the full measure of what is taking place here is to see it first hand. People can tell you . . . and we appreciate the enthusiasm of those who have seen the calves and the good word they are spreading . . . but you have to be here to really know.

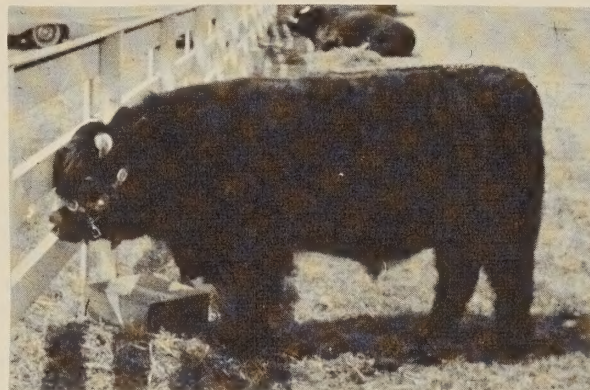

We would like you to refer to the back pages of this catalog for the list of those from 29 states and Canada who have purchased from Northwood since 1961. Last year this list contained 85 names. In 12 months this has grown to 176. We believe this is indication Northwood is producing the breed-improving kind, that customers are being treated fairly and that our guarantee is our bond.

As always, our free delivery offer, stated in full elsewhere, applies. We feel this is important in that it puts Northwood Shorthorns within the reach of every breeder in the nation.

Every knowing breeder realizes the commercial cattleman is the backbone of the business . . . but how many breeders are doing anything about it? Northwood's program calls for our feed lots to be full of steers. We try our best to make these Shorthorns and Shorthorn crossbreds, to feed them right, market them at proper weights and to see to it they are given proper attention and promotion when they arrive at the Chicago yards.

We will search for good Shorthorn steers wherever we can, and, of course, a part of our customer follow-up program will be to keep an eye on Northwood blood in commercial herds . . . your customers and ours.

Glastullich Promenade. This son of Crichton Buzzard out of our famous Burnton Eliza 10th was the top selling bull of the 1963 Northwood sale at \$5,000 to Dr. Harvey Holmes, Paola, Kansas.

Glastullich Great. The bull, sire of a number of Northwood's champions and top sellers, is now owned in partnership with Kuhrt Farms, Edson, Kansas. This well known firm exhibited the reserve champion load of feeder calves over all breeds, 1963 American Royal, all sired by Northwood bulls.

Kuhrt Feeders Reserve Grand Champions at Kansas City

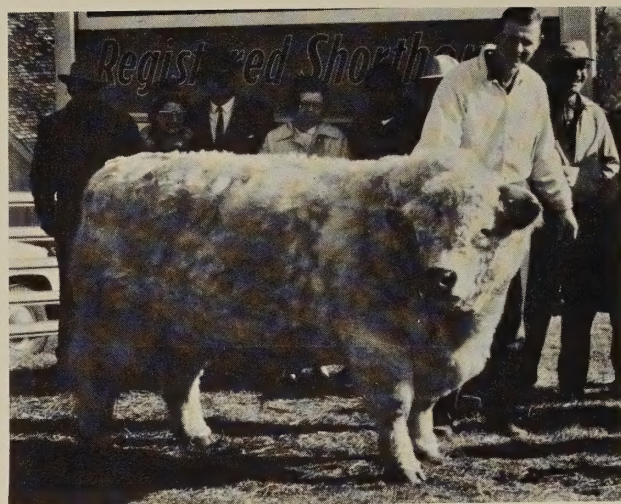

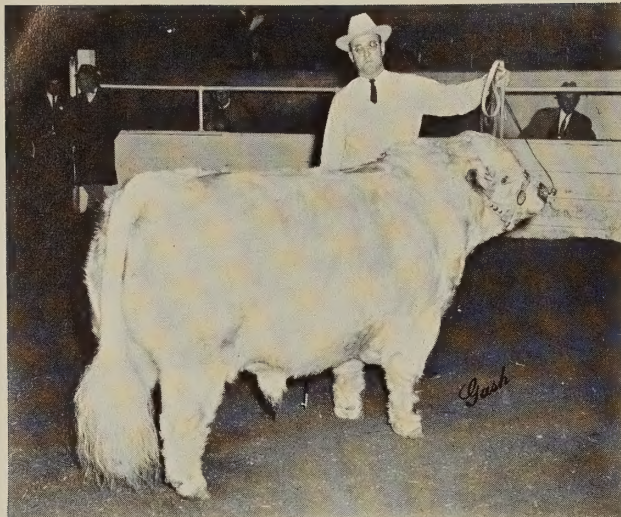

Shorthorns staged one of their strongest feeder shows in recent years at the American Royal, Kansas City, Oct. 16. Four pens of superb calves were in competition.

Winning the championship of the breed and the reserve interbreed rosetta were Kuhrt Farms, Edson, Kan. Their flashy, soggy, pen-of-20 were sired mostly by Northwood-bred bulls. Paul Kuhrt and nephew Jim Flanders were on hand for this event. This load averaged 446 pounds and for \$37.25 to Jim Collier, Shorthorn breeder and ASA classifier, Alta Vista, Kan. Most of these will be used as project steers.

Brief Mention

Northwood Farms, McHenry county, Ill., was represented on Wednesday's market with 20 Shorthorn steers that averaged 1192 lbs. and sold at \$30.75. These steers attracted a good deal of attention in the Yards as their quality and conformation was something to see. They had good market weights and were not overdone.

The United States market for agricultural imports is relatively stable, according to a report by the U.S. Department of Commerce.

The purchase of the entire Glastullich herd was the greatest single move ever made by Northwood. Glastullich Cock Robin alone would have justified the entire investment. We began hearing about him from Scottish breeders almost from the day he was dropped. The hundreds of competent stockmen who have viewed him have been unanimous in their appraisal that he is one of the great individuals of any breed. He has a strong stock bull's head, great width, depth, smoothness of fleshing and ruggedness. He has unusually good feet and legs and is very thick through the lower thigh, factors that need correction in many cattle.

He is a son of Glastullich Rosewood Robin whose three sons in the 1962 Northwood sale sold for \$6,250, \$3,700 and \$3,200. He has been a consistent sire of tops. The dam of Glastullich Cock Robin is one of the great cows of the breed. She is also the dam of Glastullich Sunshine, sold at \$7,200 in the 1961 Northwood sale to Emile Cammaert & Son, Rockyford, Al-

berta, where he is doing a great job.

Exhibited only three times, he was the first prize two-year-old at the International, the grand champion at Denver, 1964, and Ft. Worth, 1964. He is the All-American two-year-old of 1963.

Most important of all is what this bull is doing as a sire. In every pasture and every lot at Northwood you will find forceful testimony that he is one of the great sires of all time. He is the most potent sire we have owned . . . every calf inheriting his great qualities. A feature of this sale are fourteen of his first sons . . . a few daughters and many females bred to him. Only a few of his calves were old enough to show at Denver time and these were in the youngest class. A daughter was the first prize spring heifer calf and a son the second prize spring bull calf, both nominated for All-American. All we ask is that you come and see for yourself.

ABOUT THE NORTHWOOD PICTURES

As has been the custom, many of the Northwood pictures in this catalog were taken by members of the staff at Northwood and are unretouched. Also, Harold Willum and Jake Curry of Abernathy Photo Service came out to the farm and took a large number of the sale cattle standing on grass and these pictures have not been retouched. Bapton Guardsman, purchased last year for \$25,000, was one of our capital investments in the future. Now that we have seen his first calves, we are more than pleased. These calves will be displayed prominently at sale time and there will be many conversations about which of our two great bulls is the best sire. We are pleased that we have such a combination.

This bull represents the very best breeding developed in the Bapton Herd. His dam, Bapton Marilyn Broadhooks, is also the dam of Bapton Connoisseur, sold at Perth for 4,000 gns. to Australia; she is the dam of Bapton Clanroy, stock bull at Coldoch for three seasons then exported to South Africa at a high figure; she is also the dam of Bapton Onward Bound, a prize winner at Perth in 1960 that sold in the Argentine for 4,000 gns.

Kirkton Hercules was one of the all time great sires. His daughters have tremendous character and are noted for their production of great stock bulls.

The sire of Bapton Guardsman is of course most familiar to us and brings the very desired tie-in with our Glastullich foundation. We sold Glastullich Garrison to Bapton for \$22,500 after we had purchased the Glastullich herd. His sire, Bapton Balmoral, was noted for his strength, substance and great hindquarters. Garrison is from the same Floss family as Calrossie Constellation. Bapton Balmoral is the sire of many outstanding females in the Glastullich herd which is now at Northwood. He is also the sire of Glastullich Victor used here and now owned in partnership with the Ferris family, Greenfield, Indiana, and also of Glastullich Sunshine sold for \$7,200 to Emile Cammaert.

Bapton Pioneer has played a key role. In the first two Northwood sales 29 sons and daughters of this great breeding bull were sold for an average of \$2,048. Such wide public approval is the best indication that Bapton Pioneer sires the kind that is meeting the demand of critical stockmen. It is gratifying that a large percentage of these sons have sold into the Western cattle country. Bapton Pioneer has been a potent sire of both top bulls and females. He is bred to be such a sire, being a son of the 7,000 gns. Bapton Cairnbrogie, full brother to Bapton Constructor. His dam, Bapton Mavis Crocus, is one of

the great cows of the breed, purchased for 1,500 gns. in the Bapton-Glamis sale. She is also the dam of Louada Masterstroke, sold at a high figure to Maclyn Plantation, Albany, Georgia, and of the \$15,000 Louada Masterpiece exported to Sr. Charles Duggan of the Argentine.

Bapton Pioneer is still being used. Many excellent daughters are in this sale. He has left in the Northwood herd a great heritage of daughters which are among our best brood cows.

This powerful bull was a herd sire in the Bapton Polled Shorthorn herd at the time of its sale and we feel very fortunate to have been able to purchase him. For some time Northwood had given thought to a Polled Shorthorn project so as to be represented in this important branch of the breed. This bull and his breeding fit perfectly into our plans.

Clipper King of Bapton is a bull of tremendous scale and substance, great bone and deep muscle fleshing with a powerful stock bull's head. You will notice that this bull carries his size through his body and is close to the ground. He has great feet and legs. In Scotland he headed the beef Shorthorn team to demonstrate the breed's qualities at the important "off the grass" demonstrations at Harrogate, England.

His dam, Bapton Fair Clipper, one of the best females at Bapton, was sired by Calrossie Constellation, the unbeaten male of Britain in 1957, and her dam, Fair Clipper 45th, was the unbeaten female in 1956. She was also the dam of the 1959 Bull of the Year, Bapton Northward Bound. Calrossie Highland Leader was one of Kirkton Baronet's best sons and

was used with great success at Millhills. Fair Clipper 27th was a full sister to Millhills Xtra, top price bull of the year at Palermo, and stock bull for the famous herd of Messrs. Duggan, Sittyton, Argentina.

Coronet Max Leader 3rd x was the Thieman-bred bull selected to start the famous Bapton Polled Shorthorn project. He weighed 2,352 pounds before being exported to New Zealand after three years service at Bapton.

The \$4,000 top selling female in the last Northwood sale going to Acadia Farms was a cow with an outstanding Clipper King of Bapton heifer calf at foot. This calf stood third in a strong class of junior calves at the International with a four months age disadvantage. We have a number of excellent calves that are ample proof of his importance to the Polled Shorthorn future.

We will sell a number of open heifers with breeding privilege so that Polled Shorthorn breeders can obtain a calf by this impressive bull.

Calrossie Scottish Soldier at the 1962 Perth sale after winning the junior championship.

The 1962 Perth junior champion, he represents the very best of Calrossie and Cruggleton breeding. Calrossie Scottish Soldier is a real modern type Shorthorn with plenty of size and substance and a world of quality. His dam comes from the famous Goldie family which has produced such great stock bulls as the 10,000 gns. Calrossie Highland Piper used by A. R. Cross. We are pleased to present in this sale his first two bull calves which give evidence of his ability. A number of our sale females are bred to him.

Kinellar Refiner, grand champion of the 1960 Calgary Exhibition and grand champion of the 1960 International Congress Sale where he topped the sale at the strong price of \$6,000. He is proving to be one of the best breeding bulls in the country. We are keeping about 20 of his daughters in the herd and they will be among our best. We are reluctant to part with the grand group of Kinellar Refiner daughters in this sale and this

is the first group of his daughters we have sold. We are doing so to become a participant in the annual Northwood sale and to show the kind that are being produced at Tempel Farms. His first sons have sold well into the herds of good breeders and this second crop of sons being sold are the best we have offered. We are confident they will make a good impression.

LOUADA WATERLOO FOLLY — Imported-in-dam daughter of the Perth supreme champion Glamis Benefactor now heading the well known KC Shorthorn herd in Missouri. Her dam has some of the top Scottish sires in her pedigree.

Ten bulls being loaded onto trucks after the first Northwood sale. They were all going to Western states.

Tempel Farms have built one of the breed's strongest cow herds. This is a portion of the herd.

When Tempel Farms entered the Shorthorn business four years ago it was with the firm resolve to build one of the truly great herds of the breed. They have purchased the outstanding females throughout the continent, as well as the entire well known Whitehall herd. The selections were made with such skill that to look at the cow herd today one would think they had been sired by the same bull so uniformly high is

the quality. The herd bull battery is one of the breed's foremost.

Since the herd was started they have retained their heifers, and the group selling in this sale will be the first offering of Tempel Farms females in such numbers. Ten of these are by Kinellar Refiner, Calgary and International Congress champion. They are a breedy, smooth, uniform group.

This picture, taken last September, shows a group of young bulls at Tempel Farms. Left to right, Louada Bruno sold in the Denver sale to Cantwell Stock Farm, Sterling, Kansas; Tempel Adventure, selling in this sale; Whitehall Caesar by Kinellar Refiner sold privately to Walter Price, Galesburg, Ill.; Whitehall Monty by Kinellar Refiner, selling in this sale; Tempel Contrite, sold in the International sale to Leo Schmitz, Maryville, Kansas; and Whitehall Ranger by Kinellar Refiner sold in Denver to G. E. Wise, Joes, Colorado.
